Flowers in the wind

(AN: Hoi! I'm a biiiiiigggg undertale fan and I luv it sooooo much! XD I wanted to make a version with a bunch of Anime though because Toby doesn't seem to like anime :'(so hopefully you like it! Meh grammer isn't that good butttttttt XP)

1rst person POV

My name is Sakura. I am a Neko girl and I live in the human world. I have short pink hair that is like a sakura blossom in color and i have white ears and tail. I wear a mini skirt and leggings. I dress like a school girl basically. and I went to this large mountain with a large hole in it. (This is before Frisk BTW) I went to it and looked around. But then, I fell down the large whole!

"AHHHHHHHHH" I screamed as i hit a flowerbed. I got up and looked at the hole. "That really hurt" I meowed. I brushed my tail and then I got up. I walked over to this flower.

"Howdy! I'm flowie! Flowie the flower!" The flower said

"Wow! Sugoi!" I said in Japanese

"You aren't from here are you?" He said in a question way.

"Nope! I'm from Japan!" I said proudly

"Really? Sugoi! Me too!" He said. We started talking in Japanese then he was his by fire. This stupid goat (cow? Idk.) Thing walked over.

"Come my child"

It showed me around.

She interrupted my convo and she was so slow. (Idk why people liwk her.)

After she showed me the puzzles she gave me a phone and justâ€¦
dumped meh! Rude!

She took me to her house. She made me look around and I didn't care. I rested and got gross pie. Torial is just soooooo boring. I got to fight her and I killed her because she was so boring. (Why dk you guyz like her? She is WAYYYYY to slow! And annoying! Aug! Not Sugoi at all!)

Then Flowey came out!

"Howdey!" He sisd

"Konichiwa" I said in Japanese

"I see you killed that lady torialâ€¦ Well good for you. She sucked anyway" Flowey said agreeingly

"Yeah. I can't wait to actually have an adventure!" I nyaed.

Flowey laughed then disappeaeed, and I continued my journey

* * *

><p>I walked down a snowy path and I stepped on a stick and it made no sound and then a skeliton popped out! "EEEEEEEEK" I said!<p>

"Hey I see ur a cat girlâ€¦. That's pretty Sugoi." The skeleton said.

"W-who are you?" I said scaredly.

"I'm sans. Sans the skeleton." Sans said.

Sans was wearing a blue hoody and an attack on Titan shirt. He had a necklace with sailor moon on it and he had pastel slippers too! He was an Otaku! Nya!

(** (AN: OTAKU ISN'T A BAD WORD! STOP SAYING IT IS OR I'LL CALL YPU A BAKA. OTAKU MEANS ANIME FAN! AND DON'T CALL ME A WEEABOO! BAKA!))*

"Kawaii!" I nyaed happily.

"If you think I'm Kawaii you should see my brotherâ€¦ he's really Sugoi" sans said.

I was really happy to see his brother. He led me over to a large area.

"Hide behind that lamp" sans said

"Ok" I said.

I hid behind the lamp. His brother came along ;3

Payrus was a big skeleton who wore a cosplay of Levi from attack on Titan ALL the time! He was so Kawaii! He didn't have the wig though but it was still great! For those who don't know, Levi wears a brown jacket, a cravat, a shirt (duh! XD), and a green cape with the wings of freedom on them!

"Brother! I gotta capture a human! Why are you laying around like that?!" He said

"Well I'm just watching some Sugoi anime" sans said.

"well do that later! Right now we gotta capture the human! NEH HE HE." He said as he drank the tea like how Levi does.

"Well why don't you look behind the lamp right there?" Sans said

"shut the fuck up sans lamps aren't Kawaii! No human would hide behind there! Imma make puzzles! Neh he he! I am going to be so famous! I, the sugoi pap

yrus!" He laughed then left. I came out of my hiding spot.

"I bet there are going to be super Sugoi puzzles ahead!" I nyaed.

"Yeahâ€¦ my brother is a pretty Sugoi puzzle maker" sans said.

I walked off to continue my grand new adventure! Yay!

(AN: good bye! This is meh story so far and I want lots of faves and comments so I can continue! I want at least 5 comments or 10 faves before I post the next chapter!
